

Contents

1. INTRODUCTION TO ORGANOMETALLIC CHEMISTRY. <i>By Frank K. Cartledge, Louisiana State University, Baton Rouge, Louisiana, and Henry Gilman, Iowa State University, Ames, Iowa</i>	1
2. CHEMICAL CHARACTERIZATION OF ORGANOMETALLIC COMPOUNDS. <i>By Otto Schwarzkopf and Francine Schwarzkopf, Schwarzkopf Microanalytical Laboratory, Woodside, New York</i>	35
3. CHARACTERIZATION OF ORGANOMETALLIC COMPOUNDS BY INFRARED SPECTROSCOPY. <i>By Kazuo Nakamoto, Illinois Institute of Technology, Chicago, Illinois</i>	73
4. MASS SPECTROSCOPY OF ORGANOMETALLIC COMPOUNDS. <i>By Robert W. Kiser, Kansas State University, Manhattan, Kansas</i>	137
5. THE DETERMINATION OF ORGANOMETALLIC STRUCTURES BY X-RAY DIFFRACTION. <i>By N. C. Baenziger, University of Iowa, Iowa City, Iowa</i>	213
6. CHARACTERIZATION OF METALLOID AND ORGANOMETALLIC COMPOUNDS BY MICROWAVE SPECTROSCOPY. <i>By Ravi Varma, New York University, Bronx, New York</i>	277
7. CHARACTERIZATION OF ORGANOMETALLIC COMPOUNDS BY MÖSSBAUER SPECTROSCOPY. <i>By Rolfe H. Herber, Rutgers, The State University, New Brunswick, New Jersey</i>	315
