

Contents

PREFACE	vii
CONTENTS OF VOLUME II	xi

1 Activation of Molecular Hydrogen

I. Introduction	1
II. Structure and Reactivity in Metal Hydride Complexes	2
III. Activation of Hydrogen by Copper and Silver Ions	11
IV. Activation by Transition Metal Halides	17
V. Activation of Alkyl and Acyl Halides	23
VI. Activation of the Carbon-Hydrogen Bond by Platinum Group Metal Complexes	30
VII. Activation of Molecular Hydrogen by Pentacyanocobaltate (II)	33
VIII. Hydrogenation of π Complexes	42
References	72

2 Activation of Molecular Oxygen

I. Introduction	79
II. Reaction Types	79
III. Energy Requirements of Oxygen Reduction	82
IV. Non-Insertion Reactions Involving the Reduction of Oxygen to Hydrogen Peroxide	84
V. Non-Insertion Reactions Involving Complete Reduction of Oxygen to Water	127
VI. Non-Insertion Reactions of Hydrogen Peroxide	136
VII. Partial Insertion Reactions	143
VIII. Total Insertion Reactions	170
References	174

3 Activation of Molecular Nitrogen

I. Introduction	181
II. Activation by Microorganisms	182
III. Transition Metal Complexes of Molecular Nitrogen	200

IV. Fixation of Molecular Nitrogen by Metal Ions and Metal Complexes	266
V. Summary	285
References	285
4 Activation of Carbon Monoxide	
I. Introduction	293
II. Carbon Monoxide Exchange Reactions	294
III. Carbon Monoxide Insertion Reactions	296
IV. Synthetic Applications of Carbonyl Insertion Reactions	316
V. Catalysis of Oxidation of Carbon Monoxide by Metal Ions and Metal Complexes	344
VI. Reactions of Coordinated Carbon Monoxide	351
References	353
5 Activation of Nitric Oxide	
I. Introduction	357
II. Transition Metal Nitrosyls	358
III. Nitrosation of Organic Compounds	375
IV. Applications of Metal-Catalyzed Nitrosation Reactions	382
References	387
Appendix I Formulas, Bonding, and Formal Charges	391
Appendix II Glossary of Terms and Abbreviations	394
AUTHOR INDEX	397
SUBJECT INDEX	415
