Chapter 1

Sylow Π-properties of Finite Groups	17
1.1 The Π -method for the investigation of groups	17
1.2 δ -properties and universal properties of finite groups	18
1.3 Sylow Π -properties of finite groups	18
1.4 Necessary and sufficient conditions for properties C_Π^s and E_Π^s	19
1.5 Theorems of Schur and Schur–Zassenhaus	26
1.6 A necessary and sufficient condition for property C_Π	32
1.7 The property $C_{\Pi, \Pi'}^s$	34
1.8 Π -solvable groups	35
1.9 Maximal subgroups of Π -solvable groups	37
1.10 Non-nilpotent subgroups of finite groups	43
1.11 The monomial homomorphism	44
1.12 p -decomposable subgroups	48
1.13 A decomposition of Π -solvable groups into direct products of subgroups	51
1.14 Π -supersolvable groups	54
1.15 Π -separable groups	57
1.16 Necessary conditions for the existence of subgroups	58

Chapter 2

Factorizations of Finite Groups Based on the Indices of Chief and Composition Series 61

2.1	The direct and inverse problems of factorization for finite groups	61
2.2	A factorization lemma	62
2.3	A factorization for finite groups, using a chief series	62
2.4	Composition-block factorizations of finite groups	76
2.5	Π -factorizations of finite groups	77

Chapter 3

A Method for Finding Subgroups by Means of Indexials 79

3.1	The method of indexials	79
3.2	Arithmetic indexials of finite groups	79
3.3	The definition of a constructive indexial	80
3.4	The measure of solvability for finite groups	81
3.5	Extensions of indexials	81
3.6	Isomorphism lemmas	84
3.7	The fundamental theorem on the existence of regular Sylow extensions of indexials	85
3.8	Directed indexials.	100
3.9	Applications of the method of indexials	101
3.10	c -separable groups	106
3.11	A further example of a regular indexial	108

Chapter 4

Complexes of Non-Nilpotent Subgroups 109

4.1	Introduction	109
4.2	Additional notation	110
4.3	Subgroups of type S_p and ΠS -complexes of subgroups	111

<i>Contents</i>	15
4.4 ΠSC -complexes of subgroups.	115
4.5 ΠSC -complexes of subgroups and dispersibility of groups . .	120
4.6 ΠS -complexes of subgroups and dispersibility of groups . .	123
4.7 Non-decomposable Π -complexes of subgroups	126
Bibliography	133
Index	141
